# The CoP Intensive Workshops

We are pleased to offer you access to our CoP Intensive Workshops. These sessions held by the members of EDF STAR offer you the opportunity to discuss your current CoP results with other EDF farmers in a small group. Below, you will find detailed information about each session. You have the opportunity to attend one CoP Intensive Workshop of your choice.

## **Low cost strategy: Best choice under all circumstances?**

*with Richard Simpson, Jens Toksvig Bjerre and Danutė Palkimienė*

We will discuss opportunities to increase profits and reduce risk by pursuing lower cost strategies, with optimal milk output.

## **Improving the income side: cow-related.**

*with Cristian Rota, Tomas Tubritt and Sona Borovska*

Your economic returns from the dairy enterprise will be a particular focus. You will find out where you stand with your farm and we will discuss how you can improve your revenues.

## **Longevity and life-time production as driver for income.**

*with Henna Mero, Aline Lehnen and Filipe Lino*

We will compare the performance parameters of your herd and see how you compare to other EDF farms. Together we will discuss the effects of cow longevity on economic success.

## **The harder you work, the better the income?**

*with Susanne Bååth Jacobsson, Sophie Tellier and Pablo Carro Mosquera*

We will look at how much you work and what you earn in return. Together we will exchange ideas on how to improve your return to labour.

## **What are strong and weak points of your farm?**

*with Jan Halewyck, Vojta Zink and Marco Horn*

Do you know where your farm performs well and where it has unused potential? In a small group of 3 to 4 people you will analyse the strong and weak points of the participating farms.

## The Farm Visits

8 Dutch dairy farms will open their doors to congress delegates and invite them for guided farm tours on Wednesday and Thursday afternoon. Which 4 farms the delegates will visit depends on their preferred *Learning Line*.
